

NW Doodles – Buyer’s Agreement

Buyer’s Name: _____

Buyer’s Address: _____

Buyer’s Phone Numbers: _____

Buyer’s Email Address: _____

Standard Goldendoodle Puppy F2

Parents: _____

Date of Birth: _____

Color: _____

Sex: _____

Purchase price: _____

Shipping costs: _____

This puppy will not be released to the buyer until he or she is at least 7-8 weeks of age. \$200 is required with your accepted puppy application, \$300 two weeks before your expected pick up/delivery date and the balance on or before the puppy's pick up/delivery date.

The Seller Agrees:

1. This puppy has temporary vaccinations against parvovirus, parainfluenza, adenovirus, distemper and coronavirus. The seller is giving a health guarantee for 3 working days. In that time a licensed veterinarian must examine the puppy. If he/she finds any life threatening genetic defects or life threatening illness the puppy may be returned for a full refund. This request must be made within the first 3 working days and will only occur at the return of the puppy to the seller. All shipping costs for return are the responsibility of the buyer. If the buyer returns the puppy for any other reason during this time period the seller will only refund half of the original purchase price. This guarantee is null and void if a veterinarian has not examined the puppy within this time frame.
2. This puppy is offered with a 24-month health warrantee from date of birth against any serious life altering genetic defects excluding hips.* If a life altering genetic defect arises the seller will offer a replacement puppy of equal value **when this is available**. The buyer may opt to keep this puppy OR have the seller sell this puppy for the price indicated above and forward this money to the buyer. The seller DOES NOT require that the buyer return the original dog. The buyer must provide the seller a veterinarian certificate attesting to this genetic defect. The seller reserves the right to request a second opinion at the veterinarian of their choice and may require further genetic/health testing if the circumstances are warranted.
3. The seller does not guarantee that this dog will be non-shedding or hypoallergenic.

** A note about Hip Dysplasia. As a breeder we will do our best to provide puppies with excellent hips. But there is no way you can guarantee this. Even if the parents are genetically perfect with respect to hips there is no guarantee the offspring will be. Any 2 year guarantee with respect to hips is meaningless because you cannot x-ray for hip problems until they are at least 2 years. If your puppy should show signs of lameness or obvious hip issues at any time in the first 2 years we can discuss replacing the puppy or providing a refund unless the lameness is injury related. Our goal is to have happy customers with healthy puppies.*

The Buyer Agrees: (If these terms are not met, this contract is null and void.)

1. The buyer agrees to provide the puppy with regular veterinary care including an annual veterinary exam, vaccinations as recommended by veterinarian and parasite prevention (heart worm, fleas, ticks, etc). Upon execution of this contract all veterinary care and its associated costs are the sole and exclusive responsibility of the buyer.
